Daniel Perez

Full Stack Developer

danielperezf98@gmail.com | 951-385-2721 | Orange County, CA | https://www.dxniel.dev

Skills

Front End: JavaScript ES6, TypeScript, Reactjs, Nextjs, HTML5, CSS3, Tailwind

Back End: Nodejs, Expressjs, RESTful APIs, JSON, JWT, Argon2, PostgreSQL, MongoDB

Tools: Git, GitHub, VS Code, Figma, Canva, Slack, Discord, AWS Elastic Beanstalk, Vercel

Professional Experience

Junior Front End Developer, The Daily Wire   May 2024 – present
- Assisted in the development of responsive web applications using **HTML**, **CSS**, **JavaScript**/**TypeScript** and **React** under the guidance of senior developers.
- Contributed to the implementation of **UI** designs and features, gaining hands-on experience in front-end development best practices.
- Researched and recommended technologies and tools to meet project requirements based on design specifications and features.

Teaching Assistant, LearningFuze   Mar 2024 – May 2024
- Supported students in comprehending application solutions, emphasizing key technologies such as **HTML**, **CSS**, **JavaScript**, **TypeScript**, **React**, and **PostgreSQL**.
- Assisted students in troubleshooting coding errors, utilizing research, documentation, and code reviews to find solutions.
- Collaborated with instructors to enhance curriculum and improve student performance.

Applications Developed

Personal Portfolio Website ✎

A front end web application showcasing my coding journey, skills, projects and a way to contact me.
- Developed and deployed a personal website using **React**, **TypeScript**, **Tailwind** and **Vercel**.
- Leveraged creative UI/UX design strategies to highlight professional projects and skills, resulting in a distinctive and memorable online presence.
- Applied **responsive** design principles, ensuring an intuitive and visually pleasing UI across various devices.

Spin Trade Marketplace ✎

A fullstack web application for vinyl collectors to buy and sell records.
- Built a full stack web app using **React**, **TypeScript**, **Tailwind**, **Nodejs**, **Express**, **PostgreSQL** and **AWS**.
- Engineered and implemented the application from concept to deployment on AWS Elastic Beanstalk.
- Designed and integrated authorization mechanisms to control user access based on roles and permissions.

Studio Ghibli Wiki ✎

A front end application that allows users to create a list of their favorite Studio Ghibli films.
- Utilized **React**, **TypeScript**, **Tailwind** and **GH-Pages** to build a responsive and intuitive front-end design.
- Engineered a display of Studio Ghibli films from a public **API** and implemented **Fetch** to display results.
- Designed using **Figma** and utilized **LocalStorage** to store and retrieve data from previous sessions.

Education

Full Immersion Web Development Program, LearningFuze   Aug 2023 – Dec 2024
                                                                                  Irvine, CA
- Programmed 10-12 hours a day for 18 weeks (800+ hours) in a simulated Agile work environment.
- Collaborated with developers in hackathons to create applications and gain experience in pair programming.
- Assisted classmates with troubleshooting and debugging personal projects.
